Growing Great Kids

Are you in the early stages of your parenting journey? Interested in partnering with someone to better support your child's early development and learning? Hoping to build a strong foundation for your family?

Growing GREAT Kids is a GREAT place to start!

WHAT TO EXPECT

The GGK program provides partnership with parents of children birth through age five through weekly one-on-one parent visits.

Early childhood learning modules are focused on each child's individual stage of development, and family strengthening modules build upon parenting skills and goals unique to each family

At a time and location that works best for YOUR family! We can meet at your home, at our Family Learning Center @ Family Connections, or virtually on Zoom.
